

Behaviour for Learning One Page Overview

Intent:

Live:

Pupils will continually develop their character so that they become the best version of themselves in order to live successful and fulfilling lives.

Love:

Pupils will consistently display a thirst for knowledge and understanding and a love of learning. Pupils' attitudes to learning will be of an equally high standard across subjects, years and classes and with different staff.

Learn:

Understand what constitutes 'responsible behaviour' to prepare for life in modern Britain and Global citizenship in the 21st Century

At Oasis Academy Hobmoor, we believe that a safe environment of mutual respect and co-operation results in the most effective climate for learning and teaching. The fundamental principle underpinning our behaviour policy is unconditional respect. This combined with rights, responsibilities and routines will produce good behaviour conducive to good learning. An effective discipline policy is one that seeks to lead pupils towards high self-esteem and self-discipline. Consequently, good discipline arises from good relationships and from setting expectations of good behaviour. We believe that self-esteem affects behaviour and impacts on learning and performance. We aim to provide positive everyday experiences so that our pupils are more likely to reach their full potential. We expect high standards of behaviour at all times. We encourage children to develop self-discipline and to care about themselves and others, respecting their rights and feelings.

Oasis Academy Hobmoor, as part of OCL, is committed to developing the character and competence of every student, in line with our Oasis 9 Habits, in pursuit of all students receiving an exceptional education. Our localised Behaviour for Learning policy is underpinned by four key levers: Vision and Values, Personal Development Curriculum, Academy Behaviour Systems, Structures and Routines and Behaviour Training and Professional Development for staff.

Our students will learn to:

- Take responsibility for their own behaviour and choices, understanding the impact they have on others
- Develop positive learning behaviours including self-direction, resilience and self-control
- Self-regulate (as developmentally appropriate) their own behaviour by developing skill and confidence in managing conflict and difficulty
- Develop strong dispositions, attitudes to their own and others' learning, and well-being.
- Develop their ethical approaches and values in their lives
- Develop an understanding and tolerance of each other through knowledge, mutual respect, forgiveness and believing the best of one another.

'Every Child is an Artist' Programme. As part of our Personal Development Curriculum, we actively foster and encourage a love for the arts. Through our 'Every Child is an Artist' programme, children are taught a vast range of artistic skills by professional artists. Children have the opportunity to display their learning through termly exhibitions within the academy, which are open to the community.
