

Beast Creator

Imaginative Learning Project for Year 5 children

A bug, a creepy-crawly, a beast! He'll tickle your skin then go in for the sting!

Arachnids, invertebrates, molluscs and myriapods, hiding in nooks and beneath darkened rocks... Come search for these minibeasts, and let's sort them out! How many legs? How many wings? Who does it eat and who eats it? Can you classify it? Can you draw it or make it?

Build a bug hotel or a wonderful wormery – then watch them wriggle and burrow, mixing earth as they go!

Discover where in the world you'll find the deadliest beasts – scorpions, ants and venomous spiders... Perhaps the *Vespa mandariñia japonica* is the one that you fear?

Why not become a 'Beast creator'? Selectively breed a killer predator that saves the world from the super-strong aphid. You'll be a hero!

But... 'There was an old lady who swallowed a fly. I don't know why she swallowed a fly... Perhaps she'll die?'

ILP focus	Science
English	Non-chronological reports; Instructions and advertisements; Comic strips; Limericks and kennings; Fantasy narrative
Science	Living things and their habitats
Art & design	Drawing; Perspectives
Computing	Research and presentation
D&T	Model making
Geography	Local fieldwork; Contrasting locations
Mathematics	Measurement; Statistics
PSHE	Debating ethical issues
